

Innovative training Solution for implementing Integrated Management System (IMS) in SME

Start date: 01/11/2018 - End date: 28/02/2021

Objective: To develop innovative training tools for the **IMS Manager** (Manager of the IMS - Integrated Management System) and thus **facilitate the IMS design and implementation**. An application case will be developed for furniture SMEs.

Main results of the EASIMS project:

- IMS Manager on-line course (training material in form of training pills)
- Dynamic demonstrator: software that for IMS design & implementation
- A new specific curriculum for the IMS manager professional profile
- A MoU for recognition of course training outcomes in & outside consortium
