<https://discern.erasmus.site/>

Welcome to the concluding edition of the DISCERN newsletters. Throughout the DISCERN project, our collective dedication has been a driving force behind the quest to enhance the skills and capabilities of VET trainers and entrepreneurs who are at the forefront of shaping a sustainable future. We say goodbye to this chapter celebrating the culmination of our efforts and introducing the tangible results that have emerged:

- A Comprehensive Guide for VET Providers to Foster Circular Economy Entrepreneurship with SMEs
- A SME CE Skills & Readiness Verification Tool
- A Customised Digital Circular Economy Space for SMEs

RESULTS

How Can I access the project results?

You can access all project outcomes on the DISCERN m-learning platform at:

<https://discern.erasmus.site/platform/>

The DISCERN project is strategically designed to empower employees within Chambers and VET trainers, equipping them with the essential knowledge and skills necessary to champion and support start-ups and SMEs in the field of circular economy entrepreneurship. The curriculum not only serves as a comprehensive training ground but also acts as a catalyst to amplify the impact of work-based learning processes within SMEs.

Our reach extends beyond borders, DISCERN is not just a local initiative; it's a global effort to foster a community of forward-thinking, environmentally conscious entrepreneurs.

MULTIPLIER EVENTS

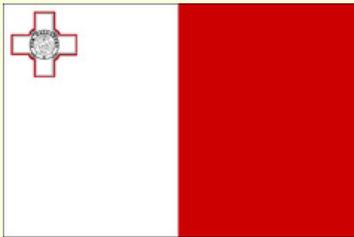

In order to support the validation of the project results and their dissemination to the project target group, the partners organisations of the DISCERN project organised, during November and December, Multiplier Events in Romania, Poland, Slovenia, Portugal, Malta and Spain. These events were specifically designed to convey the project's objectives, activities, and results to a broader audience beyond the project consortium.
